My name is Armin and I live in Linz. I'm 50 years old and I live with my girlfriend and our dog Whiskey in our flat near the Danube. I have a half-sister in Ried, she lives there with my father and my stepmother.

I work as a teacher at the vocational school Berufsschule Linz 2. There I train pupils in economy and political science, in Business English and German. Sometimes I teach project management. At present I force e-learning because of Corona pandemic. Also, I am an archer and I practise 3D shooting in my spare time.

**Your text** (max. 130 words!):

That's me

My name is Tim Hofmann and I am 18 years old. I'm in the first year of my coding and application developing apprenticeship in the company TGW. My job consists of doing exercises and 'IT-Training' lessons with my trainers but that will change soon when we get sorted into departments.

I live with my family and my cat 'Saskia' in Wilhering. Currently my aunt is living in Ireland, which is why I am really looking forward to *having*\* the English lessons.

In my spare time I love reading books and messing around with my PC. Lately, my brother and I are bothering each other out of boredom because of the Corona situation that we're dealing with right now but in general we get along alright!
